

Samsung Galaxy S10e, S10 and S10+

O₂ business

Why Samsung?

Introducing the Samsung Galaxy S10e, S10 and S10+. These new smartphones from Samsung are the culmination of a decade of S series innovation – powerful phones that help you work for longer, wherever you do business.

Everything you'd expect from an S series phone

The Galaxy S10e, S10 and S10+ pack all our latest technology into a convenient and compact design that makes a real difference to how you work.

A large, curved-edge display lets you see and do more, with an uninterrupted view. Front and rear cameras help you capture every little detail in your photos. The superfast processor really delivers, and eliminates frozen screens.

Plus, if you want to present work on a big screen, simply connect via Samsung DeX¹ with a single cable, for a desktop-like experience.

Work securely from anywhere

Work confidently, knowing your phone and business data are completely secure. Samsung Knox is built in, giving defence-grade security and ultrasonic fingerprint scanning to keep all your information safe.

Share your power

With Powershare,² you can bring a colleague's drained phone back to life, or to charge your wearable. Which means fewer cables to carry on your travels.

Work doesn't have to stop

With the feature-packed Galaxy S10e, S10 and S10+ to choose from, you can be sure of getting the power, performance, security and support you need to work.

1. USB-C to HDMI cable and accessories sold separately.

2. Wireless charge compatible (Qi standard) devices only. Battery charge above 30% required to PowerShare on the move without being plugged into mains charge.
